

We believe....

- ...qualified, caring, and innovative staff supported by a strong professional development program are necessary to be an effective school district.
- ...the family, the school, and the community working together maximize educational experiences.
- ...educational experiences should accommodate the needs of diverse learners.
- ...that learning is a life long experience.
- ...partnerships with public and private sectors are essential.
- ...in nurturing and celebrating individual differences existing within the school community and in the greater society.
- ...that keeping up with technology is essential.
- ...holding high expectations coupled with caring and understanding for students is essential for student development.
- ...continuous improvement is essential and requires regular and frequent assessment.
- ...leadership and cooperation skills can be developed in all members of the staff, faculty, and students.
- ...it is the responsibility of every member of the staff, student body, and the community to ensure a safe and secure learning environment.
- ...student learning is improved when academics are connected to application.
- ...our educational process produces productive and responsible citizens.
- ...career-technical student organizations enhance the educational experience.
- ...all students can learn and that they learn in different ways.
- ...well-kept, maintained, up-to-date facilities foster a productive learning environment.
