Healthcare Science Activities

- Turn or reposition bedridden patients.
- Feed patients or assist patients to eat or drink.
- Position or hold patients in position for surgical preparation.
- Measure and record food and liquid intake or urinary and fecal output, reporting changes to medical or nursing staff.
- Document or otherwise report observations of patient behavior, complaints, or physical symptoms to nurses.
- Provide physical support to assist patients to perform daily living activities, such as getting out of bed, bathing, dressing, using the toilet, standing, walking, or exercising.
- Remind patients to take medications or nutritional supplements.
- Review patients' dietary restrictions, food allergies, and preferences to ensure patient receives appropriate diet.
- Undress, wash, and dress patients who are unable to do so for themselves.
- Observe or examine patients to detect symptoms that may require medical attention, such as bruises, open wounds, or blood in urine.
- Lift or assist others to lift patients to move them on or off beds, examination tables, surgical tables, or stretchers.
- Supply, collect, or empty bedpans.
- Communicate with patients to ascertain feelings or need for assistance or social and emotional support.
- Record vital signs, such as temperature, blood pressure, pulse, or respiration rate, as directed by medical or nursing staff.
- Set up treating or testing equipment, such as oxygen tents, portable radiograph (x-ray) equipment, or overhead irrigation bottles, as directed by a physician or nurse.
- Gather information from caregivers, nurses, or physicians about patient condition, treatment plans, or appropriate activities.
- Prepare or serve food trays.
- Wash, groom, shave, or drape patients to prepare them for surgery, treatment, or examination.
- Change bed linens or make beds.
- Exercise patients who are comatose, paralyzed, or have restricted mobility.
- Restock patient rooms with personal hygiene items, such as towels, washcloths, soap, or toilet paper.
- Clean and sanitize patient rooms, bathrooms, examination rooms, or other patient areas.
- Administer medications or treatments, such as catheterizations, suppositories, irrigations, enemas, massages, or douches, as directed by a physician or nurse.
- Assist nurses or physicians in the operation of medical equipment or provision of patient care.
- Record height or weight of patients.
- Apply clean dressings, slings, stockings, or support bandages, under direction of nurse or physician.
- Transport patients to treatment units, testing units, operating rooms, or other areas, using wheelchairs, stretchers, or moveable beds.
- Stock or issue medical supplies, such as dressing packs or treatment trays.
- Collect specimens, such as urine, feces, or sputum.
- Explain medical instructions to patients or family members.
- Transport specimens, laboratory items, or pharmacy items, ensuring proper documentation and delivery to authorized personnel.
- Provide information, such as directions, visiting hours, or patient status information to visitors or callers.

Possible College Credits

College Credit Plus in English, Math, Social Studies, or Science	Must be preapproved. Must pass a college course at an Ohio college or College Credit Plus class at Butler Tech.
Career Technical Credit Transfer	<p>The Ohio Transfer to Degree Guarantee helps career and technical students transfer credits earned in high school to community college or four-year degree programs. The credit can be used at any Ohio public college or university:</p> <ul style="list-style-type: none">• If you successfully completed your career-technical program and passed certain required assessments.• If you attend a similar program at a public Ohio college or university. <p>For more information, go to www.transfercredit.ohio.gov</p>
Articulated Credit	Butler Tech has agreements with certain colleges; if you attend one of those colleges you can get credit toward a specific degree.

*Additional college or post-secondary education may be required in this field.
