**Instructions**

Enter data daily on this form under the appropriate columns. Sufficient data is required on this form for adequate accountability of the breakfast program.

**Number of Breakfasts Served to Students**

Paid breakfasts are those for which money is or will be received and recorded as receipts. Nonpaying breakfasts are those served to non-needy students who would be expected to pay but, by board policy, are served without charge.

Total each column the last serving day of the month. Those totals are used to complete the monthly school claim for reimbursement - form CN-4.

**Breakfast Cash Receipts**

Enter all receipts from the sale of complete breakfasts to students in column A. Enter total cash receipts for all breakfasts and beverages sold to adults in column B. There is no legal provision for providing free meals or credit to adults. Enter receipts from all other food sales in column C including a la carte receipts and receipts from other agencies. Do not report receipts for extra milk served at breakfast in column A, include them in column B on the CN-7(milk).
